IRREVOCABLE UNDERTAKING: PROPOSED GENERAL OFFER TO ASCENDIS SHAREHOLDERS AND DELISTING OF ASCENDIS FROM THE JOHANNESBURG STOCK EXCHANGE

1 Introduction

1.1 We understand that a consortium led by ACN Capital IHC (Pty) Ltd ("**ACN**"), (the "**Consortium**") intend for a transaction to be proposed to Ascendis shareholders (each an "**Ascendis Shareholder**") in terms of which, *inter alia*, –

1.1.1 the Consortium will offer to acquire all the Ascendis shares in issue (each a "**Share**") not already held by the Consortium from the Ascendis Shareholders, excluding treasury Shares, for a cash consideration of not less than R0.78 per Share ("**Consideration**") by way of a voluntary general offer by the Consortium to the Ascendis Shareholders (the "**Offer**") in terms of the Takeover Regulations (as defined in section 1 of the Companies Act, No 71 of 2008 ("**Companies Act**")) (the "**Takeover Regulations**"); and

1.1.2 the Ascendis Shares will be delisted from the exchange operated by the JSE Limited ("**JSE**") (the "**Delisting**"),

(collectively the "**Proposed Transaction**").

1.2 We understand that the Consortium and Ascendis intend to dispatch to the Ascendis Shareholders a joint circular (the "**Circular**"), which Circular shall include a notice convening a general meeting of Ascendis Shareholders (the "**General Meeting**") to consider and, if deemed fit, pass the resolution required to approve the Delisting together with such other resolutions as may be necessary or incidental to the implementation of the Proposed Transaction, including approval of the Management Agreement (as defined in paragraph 2.8 below) in terms of section 126(1) of the Companies Act (collectively the "**Resolutions**").

2 Rationale for the Proposed Transaction and Relevant Disclosures

We understand that:

2.1 Ascendis is embarking on a strategy to maximise value for its shareholders. Over the past year, this strategy has seen the appointment of a dedicated value creation team (the transition team) led by the group chief executive officer, Carl Neethling.

- 2.2 Significant progress has been made to date with various initiatives aimed at stabilising the group balance sheet and optimising costs and operations. Detail of these initiatives are included in **Annexure A**.
- 2.3 It is generally understood that, had it not been for the significant interventions of the Ascendis turnaround team ("**Transition Team**") under leadership of Carl Neethling, there would be little to no value left to recoup in subsidiary companies such as Surgical Innovations, InterV - Med and The Scientific Group, while significant value was protected and retained in the remainder of the Ascendis group.
- 2.4 The team has furthermore managed to cut and contain head office costs from a previous annualised expense exceeding R135 million (estimated) to less than R40 million currently (estimated).
- 2.5 The board of Ascendis (the "**Board**") has decided to initiate a process to investigate and progress the delisting of Ascendis from the JSE as the next step in its strategy to unlock value for Ascendis Shareholders and to provide exit optionality.
- 2.6 The remaining Ascendis group is materially smaller in asset size, earnings and market capitalisation and can no longer justify the high direct and indirect costs of operating on a listed stock exchange. In this regard:
- 2.6.1 the Shares trade with limited liquidity and the general negative sentiment towards investment holding companies and small cap shares listed on the JSE means that it is unable to garner sufficient institutional investment interest or raise meaningful growth capital;
- 2.6.2 compliance with the JSE Listing Requirements is both onerous and costly and has the undesired impact of limiting the group's flexibility to act in the best interest of its stakeholders;
- 2.6.3 the limited liquidity of the Shares on the JSE has necessitated that the Board explore options that may result in an exit or value realisation event for Ascendis Shareholders; and
- 2.6.4 should the Proposed Transaction receive the requisite approval of Ascendis Shareholders, it affords them the option to exit their shareholding in Ascendis or to remain invested and share in the value unlock process.
- 2.7 ACN is an entity owned and controlled by Carl Neethling who is also the Ascendis group Chief Executive Officer while the Consortium includes additional entities associated to him.
- 2.8 The Consortium envisages that the Ascendis board will conclude an agreement with ACN for the current executive management of the Ascendis group to continue, in order to ensure that the critical functions performed by Carl Neethling and the strategic and corporate functions fulfilled by the Transition Team (including Carl) are retained (the "**Management Agreement**"), as they will continue to be performed but through ACN, post the delisting. The functions included are listed in Annexure A and the Management Agreement is subject to the successful implementation of the Proposed Transaction.
- 2.9 The conclusion of the Management Agreement prior to the implementation of the Proposed Transaction is subject to the approval of the Takeover Regulation Panel and of Ascendis Shareholders in terms of section 126(1) of the Companies Act.
- 2.10 The salient terms of the Management Agreement are annexed hereto as **Annexure A**. The salient terms will also be included in the Circular for consideration, and if deemed fit, approval by Ascendis Shareholders.

ANNEXURE A SALIENT FEATURES OF MANAGEMENT AGREEMENT

Background to the proposed Management Agreement

- Over the past 14 months, Carl Neethling, certain other ACN team members as well as the extended Transition Team under the leadership of Carl Neethling stepped into roles requiring intensive restructuring. The transition of Ascendis has seen the team aggressively cut the head office costs by more than R100 million per year and decreased the headcount by more than 70%.
- During this period the sale of Ascendis Pharma was also concluded for a substantially higher value of approximately R57 million.
- The team was also able to manage and implement a successful rights offer to raise more than R100 million to assist in the stabilisation of the balance sheet and the group as a whole.
- The final repayment of group debt and raising alternative cost-effective banking facilities was concluded during Q1 2023.
- The optimisation of group costs and decreasing head-count of senior management has had a material positive impact on group cost structures, it furthermore has resulted in material, sustainable cost savings.
- The closure of several non-performing business units and divisions, specifically including Ascendis Supply Chain (annualised loss of more than R50 million) has further enabled the group to be transformed from operationally loss-making to a group that is generating reasonable operational profits in most of the remaining 8 portfolio companies, with significant growth prospects in several portfolio companies.
- 6 different Section 189 processes were successfully run and implemented to decrease headcount in the underlying portfolio companies.
- The business rescue process being undertaken by Surgical Innovations has resulted in material savings on liabilities (around R60 million) as well as an annualised saving on infrastructure costs and payroll costs of around R18 million per annum.
- Several other critical initiatives have seen the team salvage value and limit significant losses to the group.
- The Transition Team took over an immensely complex treasury function and has successfully been able to decentralise this function, as well as decentralise most tax related functions.

During this period Carl undertook not to be paid, in cash, any fees or remuneration in order to further alleviate the temporary cash pressures of the group.

The context of this background is a critical consideration that has led to the current proposal of formalising the final value-unlock process for shareholders with a team that has proven their capabilities and commitment and to adequately compensate them for the value that they continue to protect and unlock for Ascendis shareholders.

ACN undertakings

1. ACN shall make available substantially all the time of Carl Neethling for the purposes of acting as CEO of Ascendis and driving all strategic value-unlock and growth initiatives.

 - 3.1 Ascendis shareholders and the Takeover Regulation Panel approve the Management Agreement in terms of section 126(1) of the Companies Act No 71 of 2008; and
 - 3.2 the delisting of Ascendis from the JSE has been implemented.

- 4 Responsibilities and key focus areas of ACN:
 - 4.1 Driving and implementing strategy as approved by the Board;

- 5.2 The fee payable is not intended to be profit generating for ACN and is intended to recover the overhead costs incurred while performing a critical value unlock function for the group and shareholders.
- 5.3 In addition to the management fee, a performance incentive will be put in place that is in line with industry standards for unlisted, private equity investments that will compensate ACN for a percentage of all value returned to shareholders after value of approximately R500 million (the approximate market capitalisation of Ascendis at the Offer Consideration) has been returned to shareholders.
- 5.4 It is likely that the performance incentive may be calculated utilising values allocated to each underlying portfolio company. In this event the report compiled by the independent expert that is tasked to perform the independent fair and reasonable assessment of the Offer will be used as the basis to assign relative values for the underlying portfolio companies.
